# TAGO MAGO

is a new psychedelic jazz / krautrock duo  
from Rennes and the band is supported  
by the TRANSMUSICALES since 2022.

The duo is composed by: Joris on keyboards and Léo  
on the drums, two renowned musicians of the Rennes  
scene (Initials Bouvier Bernois, The Madcaps...)

TAGO MAGO is animated by a wild will to experiment  
and to create a new free music!

With a name borrowed from the most famous album  
of CAN, the great German krautrock band, how could  
it be otherwise?

With a background of 70's rock & progressive jazz  
(close to the Soft Machine UK school), the music  
of TAGO MAGO freely distills flamboyant cavalcades,  
psychedelic odysseys, unstoppable grooves blending  
with a very particular approach to the electronic  
trance like Zombie Zombie or The Comet is coming  
In live, the complicity and the complementarity of the  
duo is obvious, almost striking: on one side the epic  
patterns of the drums which squares the  
perimeter, on the other side the keyboards which  
open great spaces: the TAGO MAGO machine works  
at full speed, like an impetuous mechanic that nothing  
can stop!

TAGO MAGO has released his 1st album "Traversée  
Sauvage" which means "Wild Travelling" on march  
2023 with L'Autre Distribution & Boogie Drugstore.
