GRAND_MESS

electro techno live band

Concocted with analog synthesizers, electronic drums and machines, **GRAND_MESS** is a *new french live electro techno instrumental act* that aspires to connect the dance floor and the Invisible !

At the crossroads of *electro and minimal techno that veers blithely towards acid tech*, here is a tribal ritual whose chapel could have been based in Detroit, Berlin or Montreal. Three musicians and a VJ, inspired as much by Hidden Empire as Stefan Bodzin or Moderat ... Powerful and creative. Hypnotic and carnal. Grand_Mess gonna mess around

2 SCENIC FORMATS

○ Format for clubs, venues and summer festivals with a powerfull & catchy LED & VJ'ing scenography ! ○

△ 360° LED Pyramid Format △ original configuration imagined in residency at Novomax (Quimper), in the style of the famous boiler room events where the public dances around the musicians positioned under a Pyramid of LEDs & VJ'ing which can be proposed in quadriphony for clubs, warehouse but also in open air & natural spots (beaches..).

LE TETRIS

Le Novomax
Quimper

WORKSHOPS

LE LABO ELECTRO consists in creating in 4 days a mini electro audiovisual show with young musicians and young video artists to learn about VJ'ing & Mapping video mix and LED scenography ! The objective is to be able to offer a live performance of the creation. These workshops have already been organized in November 2022 in Tangier & Tetouan, Morocco, as part of NOVEMBRE NUMERIQUE, the French Institute's festival of electronic culture.
